ABOUT ME

Motivated Software Engineer with hands-on experience in ASP.NET Core, C#, JavaScript, Mendix, Web API, Entity Framework Core, SignalR, and SQL Server, with a strong focus on developing scalable, responsive, and user-friendly applications. Experienced in building real-time web applications, RESTful APIs, role-based authentication, database-driven systems, and dynamic UI components.

SKILL

- **Programming Languages:** C#, JavaScript, Python, Java, PHP, SQL, HTML, CSS.
- **Frameworks & Technologies:** ASP.NET Core, ASP.NET Core MVC, Web API, Entity Framework Core, SignalR, Mendix, Laravel, React.js, Node.js, Flutter.
- **Mendix:** Domain Modeling, Microflows, Pages, Associations, Enumerations, CRUD Operations, Data Views, Data Grids, Combo Box, Application Logic
- **QA & Testing:** Manual Testing, STLC, Test Case Design, Functional Testing, Regression Testing, Defect Reporting, Software Quality Assurance
- **Developer Tools:** Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS), Postman, Git, GitHub, XAMPP, Android Studio, Selenium

WORK EXPERIENCE

Toshall Infotech Pvt. Ltd Intern.

DEC 2025 – MAY 2026

- Developing scalable backendservices using .NET Core and C#, powering enterprise legal case management workflows.
- Building interactive UIs with Bootstrap, JavaScript, and jQuery for improved user productivity.
- Implementing fast and reliable documentsearch using Elasticsearch and working in an Agileddevelopment environment.
- Assisted with API integration, database operations, debugging, and issue resolution during application development.

PROJECTS

BidWicket – Real-Time Cricket Auction Platform (.NET Core)

DEC 2025 – MAY 2026

- Developed a real-time cricket auction platform using ASP.NET Core MVC, Entity Framework Core, SignalR, and SQL Server.
- Implemented live bidding functionality with real-time updates, countdown timers, and auction management features.
- Built secure role-based authentication and authorization system for Super Admin, Admin, Team, and Viewer modules.
- Designed responsive and modern IPL-style user interfaces with dynamic dashboards, team management, player management, and auction analytics.
- Developed RESTful APIs, integrated real-time communication using SignalR, and optimized database operations for smooth auction performance.

PROJECTS

WorkSphere - Job Portal (MERN Stack)

MAR 2025 - MAY 2025

- Built a job portal using the MERN stack to efficiently connect job seekers and employers.
- Implemented secure user authentication with JWT and bcrypt.
- Developed advanced search filters and a responsive React-based UI.
- Created scalable RESTful APIs using Node.js and Express.js and managed data with MongoDB.

Learning Management System (Laravel)

MAR 2025 - MAY 2025

- Developed a comprehensive LMS using Laravel with dedicated student and admin panels.
- Implemented features including interactive course enrollment, progress tracking, multimedia lessons, and quizzes.
- Enhanced user experience through responsive design and secure data handling

Medico (Laravel + Android)

DEC 2023 - FEB 2024

- Designed a user-friendly interface with role-based access for Admin and Customers. Implemented secure login and registration system with encrypted user credentials. Integrated Razor pay payment gateway for secure and seamless online transactions. Built a real-time inventory system to track medicine availability and prevent overbooking

EDUCATION

UKA TARSADIA UNIVERSITY

Master of Computer Application (MCA) | CGPA 8.10

2024-2026

VEER NARMAD SOUTH GUJARAT UNIVERSITY

Bachelor of Computer Application (BCA) | CGPA:6.86

2021-2024

CERTIFICATIONS

Joy with Python - NPTEL

Introduction to Prompt Engineering - LinkedIn

Rapid Developer Certification - mendix
